

Environmental Policy statement 2022

As a B Corp, Beckett investment Management group is committed to minimising the impact of its activities on the environment.

The Key points of this strategy are:

- A fully renewable energy supply at our head office with the aim of expanding this to other office locations
- Water monitoring at head office with the aim of expanding this to other office locations and setting reduction targets
- Waste monitoring at head office with the aim of expanding this to other office locations and setting reduction targets
- Certified Hazardous waste arrangements in place and meeting all environmental legislation relating to our company
- EV salary sacrifice scheme and EV charging points at head office
- Cycle to Work scheme
- Measuring our carbon footprint and looking to join Suffolk in targeting net zero by 2030, including the use of carbon offsets where we can't fully cut carbon.
- Actively promoting recycling internally, amongst colleagues, clients and suppliers
- Active members in the Suffolk Chamber net zero group
- Supporting and promoting the Suffolk Carbon charter and WSC Sustainability centres
- Boost our internal ESG (environmental social and Governance) champions internally

Signed

Ian White
